

SAFETY ACCESS SOLUTION

Upgrade your loading facilities to increase safety measures and offer the best possible protection to your operatives.

BRUCE offers a safety system with static access steps, which the lorry can drive under allowing the operator to step onto a platform with a safety cage for edge protection. If an incident occurs the system not only protects the operator from the danger of falling from the lorry but has a mechanism to move the platform quickly away from the lorry.

Features

- Push button for drop down and release mechanism
- Safety cage for edge protection
- Adjustable height
- Durable & easy to operate
- Improves Health & Safety

Options

- Various sizes made to suit customer needs
- Three or four step
- Available widths 800mm 1000mm 1200mm

Applications

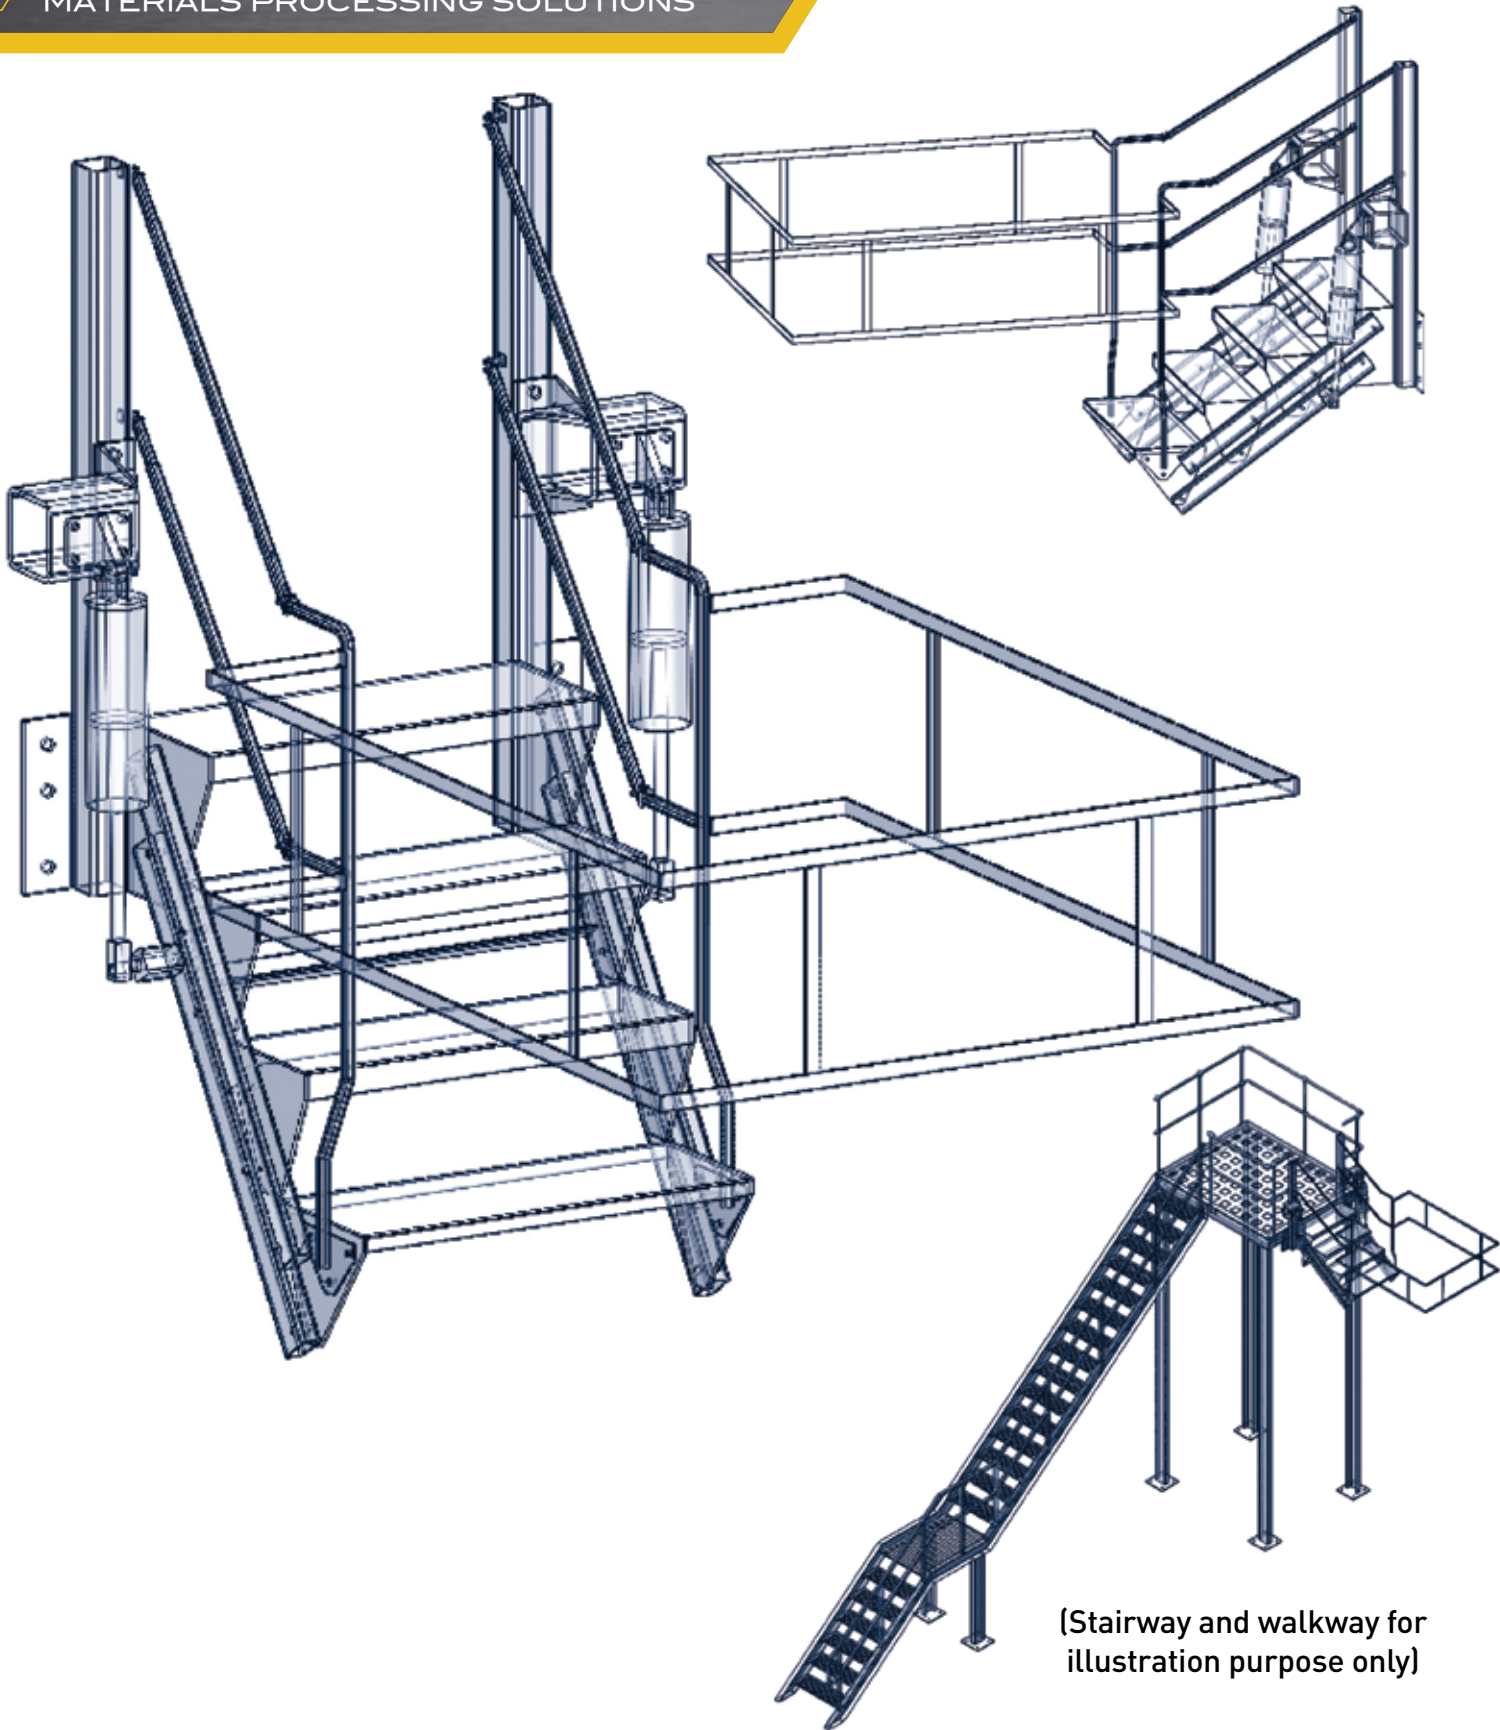

- Bulk Tankers

“ We have improved access to our tanks and increased Health and Safety measures. We are delighted with the outcome ”
